## Personal statement

I finished Craft Academy boot camp where I learned to be a full stacked developer, learning Ruby, JavaScript, HTML CSS, agile methods, scrum, test driven development and behaviour driven development and project design. After the boot camp I got an apprenticeship for 5 months working with Ruby on rails which did not lead to an employment.

I am solution oriented and work well under pressure

## Core skills

- Ruby, RoR, JavaScript, HTML and CSS
- Agile methods, scrum and TDD/BDD
- Working knowledge of Ionic and Angular
- Cucumber, Rspec, Jasmine, Mocha and Chai
- Continuous Integration and Continuous Deployment
- Version control using Git and GitHub
- Pair programming

## Projects

### FoodHub

*(Final project in Craft Academy boot camp)*

Course final project, where we advanced our mid-course project which is a recipe sharing social platform, where it is possible to fork recipes from users make their own changes and repost them.

### Duties

- Design sprint

- User authentication
- Design sprint
- User ability to:
  - fork a recipe
  - create recipe book
  - create Pdf from the recipe book

## **News Room**

### ***(Project in Craft Academy boot camp)***

We got three weeks to create a news platform where we needed to incorporate subscription, multi-language support, user roles and administration amongst other things.

## **Duties**

- Setup github repo for the project
- Setup Rails and CI
- Rspec for unit testing the backend
- Cucumber for acceptance testing the frontend
- Design sprint

## **Education**

<b>Craft Academy, Web-Development boot camp</b>	<i>(2018)</i>
